

I am concerned about the LPFM taking priority over the FM translator service because it has been brought to my attention that stations such as K-LOVE could be displaced. I feel that K-LOVE especially is an important asset to the communities in which it is broadcast since it is one area where the Christian population can listen to wholesome broadcasting for their families. This nation was formed on Christian principles and I believe that the radio broadcasting should help to uphold those principles. K-LOVE is the only station my husband and I have programmed in our cars and I hope it will remain so. Thank you. Susan G. Fisher
